REPUBLIC SPECIAL. New York, March 20 .- To-day's stock market, after a strong and active opening, with gains throughout practically the entire list, developed irregularity and general heaviness, as a result of heavy profit-taking sales. These came from commission-houses, as well as large financial interests, and the general and irregular decline that followed was stimulated by aggressive short-relling. London was also a heavy seller in this mar-ket, and some apprehension was caused in both sides of the Atlantic by the reported outbreak between the British and Russian

Brooklyn Rapid Transit led this group, with a gain of close to to 3 per cent and with buying for both interests. Gains were also made in Rock Island, Nickel Plate sec-

ond preferred, Federal Steel, Missouri Pacific and Northern Pacific and Canadian Pacific. Sugar also showed firmness and gained about a point, while tobacco soid off but made a later recovery.

The market was somewhat irregular under the continuous profit-taking, but the tone showed firmness and most issues retained a goodly portion of their gains.

Americans in London, after a tame opening, developed decided strength and showed general gains. Canada Pacific and the Pacific shares were the features. Trading was held in check by the conflicting reports in regard to the Chinese situation, and the condition of affairs at Tien-Tsin. Arbitrage houses traded on both sides of the market, but sold more freely after the advance here. The market developed irregularity during the noon hour and early afternoon as a result of the increased volume of profiting taking, in which the commission of Calumet & Hech.

Burlington was conspicuous by reason of the contential stating and the Sangess without the commission of Calumet & Hech.

profiting taking, in which the commission houses were prominent.

Burlington was conspicuous by reason of its reaction of over 3 per cent on heavy realizing sales, thought to be by Standard Oil interests. Missouri Pacific held firm on continued good buying, although it lost about half of its maximum gain. Northern Pacific reacted over a point, but recovered a portion of it. The other Pacifics and Grangers made reactions on profit-taking. The coalers were heavy with selling of Erie by London a feature.

Rapid Transit continued to lead the tractions and held very strong. Insiders bought it freely on the knowledge that President Rossiter would be succeeded by H. H. Porter as president of the company. Manhattan also showed strength, and the other Gould stocks showed gains. National Tube issues showed strength on a report that the stockholders would receive additional concessions.

The fear that there would be trouble be.

The fear that there would be trouble bethe tear that there would be trouble be-tween Russia and England resulted in heavy profit-taking during the last hour, and prices declined quite sharply. Rapid Transit was the conspicuous exception to this, closing at nearly the highest point of the day. There was good buying on the decline and the undertone at the close was steady.

Wall Street Gossip.

The following synopsis of the gossip in regard to the leading features of the New York market was received by D. R. Francis, Fro. & Co.:

New York, March 20.—London traded on both rides of the market again to-day, buying and relifing the same stocks, and on balances the sales exceeded the purchases by about 20,600 shares. The foreign trading was heaviest in L. & N. and Eries, Southern Pacific, Atchisons and Union Pacific.

There were indications of continued liquidation in many stocks by pools that have been active for some time on the bull side of the market. The selling of C. B. & Q. Manhattan, C. & O. and N. & W. appeared to be for one account. The buying of all these stocks was considered good. Wasserman Eros, took large blocks of Manhattan and were also buyers of Erle common and first preferred on a large scale.

Missouri Pacific was strong early in the day, without any absolute news, Vermilye & Co. bourht 260 shares and Jos Walker & Sons and H. M. Hume & Co. were also heavy buyers. The same buying was effective in Wabash preferred, but no information could be obtained as to what the buying was based on.

The Steel stocks were all strong, with the actual stocks in better demand than the trust company certificates. On the curb early in the day Federal Steel common sold at 44%, and the preferred at 34%. Sheefield & McCullongh were the principal sellers on the advance. American Bridge was also strong, advancing on large transactions to 46.

late in the day. News agency bulletins gave a report that President Rossiter had resigned, and statements were made by interests that should have good information in regard to the com-pany's affairs that the report is true and that he will be succeeded by a strong Western rail-road man. It was also stated by these interests that developments will result in the stockholders soon receiving a material return on their hold-ings. Boston, March 20.-Money, stocks and bonds

London, 1:45 p. m.—The market for American rollway shares opened tame, but subsequently developed decided strength, and now shows gains of 4:67% per cent over closing figures at New York yesterday. The extreme advance reported is in Lanadian Pacific, and the Pacific stocks generally are the features of the market.

GERMAN CITY LOANS.

Both Frankfort and Dreaden Come to This Country for Money.

This Country for Money.

REPUBLIC SPECIAL.

New York, March 20.—A feature of the negotiations incident to the placing of the Frankfort municipal loan in this country is the provision for the payment of caupons at the office of Speyer & Co., who have arranged to place the entire amount here. The bonds will be issued within a fortnight and reach this city in about one month. They bear 3½ per cent interest, and will net American investors something like 3½ per cent. Frankfort's indebtedness is only \$25.—600,000, including the proposed issue amount. England.

London, March 20.—Consols for money \$5, 13-15; consols for account \$5, 15-15; Atchison \$2; Cannadian Pacific \$7\frac{1}{2}; \$1. Paul 15\frac{1}{2}; \$1 Hillions Central 140\frac{1}{2}; \$1 House 17\frac{1}{2}; \$1 House 17\frac cent. Frankforts indebtedness is only \$25,-00,000, including the proposed issue amount-ing to \$3,590,000.

A Dresden municipal loan has also been announced. This will probably be offered in the United States if bids by local bankers are accepted.

Bre accepted.

Foreign Exchange.

There was an active demand for foreign exchange and the market was very firm.

NEW YORK COTTON MARKET. NEW YORK COTTON MARKET.

New York, March 20.—Conditions at the Cotton Exchange were more pacific to-day. The market opened easy, with prices in points lower, cables being again of a disappointing character and general influences unimproved. Following the opening call prices further declined 304 points under local pressure, after which there was a partial rally on profit-taking, which appeared to be the only support of the market. The movement continued large and with trade conditions unimproved local sentiment remained bearish, and the rally was a feeble one, although the lower price attracted some buying for long account. United Railways Wanted and Sold at an Advance for Bonds and Preferred Stock.

The market for local securities Wednes-

the fotal transactions were only 120 snares, the first 20 bringing \$23.50 and the balance \$23.25; the close was steady at \$23.25 bid and \$23.50 asked. United preferred, on the other hand, was in strong demand and there was a betterment in price, the sales of 360 shares made during the meeting being at \$77.75 and \$78, which was ½ to ¾ of a point higher than the previous day's close. The final figures were strong at \$77.75 buyers and \$78 sellers.

As usual trust stocks were a strong feature of the market, and with hardly an exception were in demand and salable at former prices. Title and Guaranty was inclined to show weakness, bids ranging from \$18 to \$157 at close, and the selling price deciling from \$160 to \$158.50. Mercantile was stronger at \$23.50 bid and \$297 asked, and \$t. Louis (old) was rendily salable at \$22.50 and a small lot of new was offered at \$28.50 and a small lot of new was offered at \$28.50 for which \$22 was bid. There was no quotable change in the bid price of Missourl, which was \$112.50, but there was a seller at \$114. Lincoln was for sale at \$176.50, and Union, which has not been mentioned of late, was quoted at \$32.50 sellers.

Another Busy Day Reported in Financial Circles—Money in Demand.

Officials of local bank and trust companies reported another very active and busy day Wednesday. Business in all departments was of a lively character and generally quite heavy. This was particularly true of routine work at both banks and trust companies, and especially checking and depositing, which were both heavy and large. Country business was only fairly active, but is said to be improving steadily. There was, however, a good demand for money at the old-established rates of 5 to 7 per cent, on which call and that paper was discounted. There was more than enough the end of the business of the business of the business of the paper was discounted. There was more than enough the motion found employment during the day.

The official bank clearings continue to show up encouragingly large and Vednesday were reported at \$7,715,580, the day's balances being \$1. City of St. Louis,

CLINES NOTED.

day morning was rather a quiet one, but there were some good features about it and a moderate business was transacted. Outside of the strength shown by railways there were but very few features and none of great importance. The call for inactive securities was poorly attended, but little interest being apparently taken in this new departure, and only a few quotations were made, not more than half a dozen, in fact. There were no sales and no changes in cur-rent rates. The dealings in tractions, while not so heavy as on the day before, were nevertheless at better prices and the market closed at a higher level. The first to attract attention were the 4s, for which there was a good demand early in the sessions and sales of \$5,000 were made without trouble at \$91. This exempt to satisfy the trouble at \$91. This seemed to satisfy the demand, at that figure at least, as the best bid for the balance of the meeting was 20.75 and there were sellers at \$91. There was not the demand or selling pressure in the transit stock that there was on Tuesday, the chief seller that day offering littie for sale; the demand also was light and the total transactions were only 120 shares the first 20 bringing \$23.50 and the talance

Less apparent interest was taken in local bank stocks than is usual, but there were no changes of importance to be noted in current values, the market being generally steady. There was but one trade made and that was in a 50-share lot of Third National at \$189. There were several sellers of Machanics, and the stock was offered down to \$220.59 at colse, with no bids. Other stocks were practically unchanged, with the favorite National Bank of Commerce salable at \$274.50 and \$275 asked. ferred to a committee, which reported as follows:

"We agree to leave the machine case at Chicado and Carterville Coal Company's mine at Herrin, Ill., for adjustment by a local or a Board of Arbitration of disinterested parties, the company to retain 1 cent per top off machine men until case is settled, on and after April 1, 1901, and mine must continue to work."

Among the resolutions touching on a scale were these two:

were these two:

Handwork—All entries: cross-cuts, roomnecks and break-throughs shall be considered narrow work, and shall be paid for by the yard—tweive feet and under \$1.82 per yard, and for every foot increase in width a decrease of 10 cents per yard in price, and where entries are to be arched or two men required to work together in any shift, 25 cents per yard additional.

Machine Work—Jackson County, twelve feet and under, \$1.60 per yard, and for every foot increase in width a decrease of 9 cents per yard of twelve feet and under, and for every foot of increase a decrease of \$ cents per yard. Room widening, same as present year. A feature of the market was the unexpected good demand for Brewery bonds. These have been more or less neglected for a long time, but Wednesday a demand sprang up that resulted in sales of \$15,000 at \$101.25. The close was easier at \$101 bid and \$101.25 asked

The advance in B. R. T. started on the purchase of 15,000 shares by H. Content & Co. in the first hour. Holston & Hooley took about 5,200 shares before noon and were heavy buyers again late in the day.
